

## NOW AVAILABLE: Virtual Energy Assessments

Coronavirus (COVID-19) is creating unprecedented challenges for Scottish businesses.

To help support your business, Zero Waste Scotland's Energy Efficiency Business Support Service has developed a new virtual energy assessment service. This means that our team of energy saving advisors is just a call away and ready to help your business save energy and minimise costs.

### VIRTUAL ENERGY ASSESSMENT

Remotely access our entire team's skills  
and energy saving expertise

NEW

#### 1 DATA CAPTURE

With the help of a dedicated advisor, we'll help you access valuable energy use data for your site.

#### 2 ENERGY USE ANALYSIS

Your advisor will thoroughly review your historical energy use data using the latest analysis and visualisation tools where appropriate.

#### 3 ENERGY CONSULTATION

Talk to your advisor over the phone or by video to review your site's operations and discuss your energy use patterns.

#### 4 REPORT

Receive a detailed energy assessment report outlining your recommended energy saving opportunities.

### PROJECT FUNDING

Implement your projects and start saving with an unsecured, interest-free loan from the Scottish Government.

- Available to Scottish SMEs.
- Loans from £1k to £100k.
- Interest-free and unsecured.
- No set-up charges.
- 8-year repayment.

Now with the opportunity to apply for a COVID-19 payment holiday

Our virtual energy assessments are available to Scottish small and medium-sized enterprises (SMEs).

Find out more and arrange your free assessment by speaking to one of our friendly advisors:
